App Information

Title *

[   ]

On what platform does your app run? *

[Web ▼]

Please describe what your application does in detail and how each of the API features will be used by your application *

> I need it to accept payment on my crowdfunding platform. I'm using Wordpress and Fundingpress theme. That theme needs paypal App ID with preapproval adaptive payment system.

Are you submitting this request for a PayPal App ID to use with a plugin or platform you are using? If so, please provide link to website where you purchased this plugin: *

[http://themeforest.net]

Industry and Use Cases   Identify the industry and use cases most applicable to your Application. *

Services used by app

Adaptive Payments   Leverage flexible payment APIs to process payments in new and innovative ways. *

☑ **Basic Payments**

☐ Checkout, Send Money *(deprecated[1])*   ☑ Parallel Payments *(deprecated[2])*

☐ Get Payment Details   ☐ Implicit Send Money *(deprecated[3])*

☐ Refunds or Chargebacks   ☐ Currency Conversion

Note:

[1]. Checkout, Send Money is deprecated. Recommend PayPal Payments REST API. Click here for documentation.

[2]. Parallel Payments is deprecated. Recommend PayPal EC Parallel Payments. Click here for documentation.

[3]. Implicit Send Money is deprecated. Recommend PayPal REST Payouts for US merchants and Mass Pay for the rest of the world. Click here for documentation.

- - -
